Professional Summary

Motivated Full-Stack Developer pursuing a Bachelor of Computer Applications (2025) with expertise in React.js, Firebase, and Express.js. Proven problem solver who adapts quickly to new technologies and excels in dynamic, cross-functional environments. Eager to apply technical skills and creative solutions to develop scalable features and systems for a high-trust, live-stream shopping platform.

Education

Guru Nanak Dev University (Amritsar), Punjab, India

Jun 2021 - 2025

Bachelor, Computer Applications

Projects

Personal Portfolio Website | <https://github.com/malkitkang/PersonalPortfolio>

- Built a modern portfolio using React.js with scroll-based navigation, 3D Spline models, and Framer Motion animations.
- Implemented pages: Home, About, Projects, Contact with responsive and aesthetic UI.

Gym Management System | <https://github.com/Mokshsaini-108/collegePro>

- Developed using React.js with Firebase for backend storage and authentication.
- Features: Login, Signup, Products, Machines, Subscription, Member Tracking, and Contact Us.

Recipe Website | <https://github.com/malkitkang/Recipie-App>

- Created a recipe listing and detail view using React components with images and responsive design.
